Suite 400
Cranberry Township, PA 16066-6499

January 21, 2022

To all Certified Backflow Prevention Testers:

This notice is to inform you that the Cranberry Township has contracted with VEPO CrossConnex to administer their cross-connection control/backflow tracking program.

Start Dates:

- Beginning February 8, 2022, all annual backflow assembly test reports must be submitted electronically via the VEPO CrossConnex Mobile Application which can be downloaded at the Apple App Store or Google Play for Android devices. If you prefer, test data can also be entered from any PC by visiting www.vepocc.com and following the directions for creating a tester account.
- **There will also be a webinar training for testers on February 7 at 12 p.m. Please email info@vepocrossconnex.com to request an invite to the webinar. It will also be recorded for viewing later.**
- Please make sure to obtain the VEPO CrossConnex (VCC) Number from your customer. The VCC# will be needed to access your customer's records.
- Cranberry Township is requiring every customer to submit their backflow test by December 31, 2022.

Registration:

- If you need help setting up your profile with VEPO CrossConnex after downloading the application, or have any technical questions regarding the software, please call 877-860-VEPO for assistance.
- Educational videos on how to set up and use the app can be found at www.vepocrossconnex.com.
- Please be sure your credentials are up to date. Each tester must have a Pennsylvania certified backflow tester license.

Filing Fees:

A key provision with the new procedures will be a filing fee that you, the contractor, will pay at the time of the backflow report submittal via the VEPO CrossConnex mobile application.

- The filing fee for backflow assemblies is \$17.00 per test report.
- Beginning February 8, 2022, all reports must be filed with the applicable filing fees.
- The fee is per backflow assembly test report submitted.
- The fee is paid by the credit card used to establish your account.

There will be many benefits for you with this new program. Our goal is to be completely paperless in the coming years. Once established, test due notices will be emailed to both the tester of record and the owner. The email address of the tester of record will also be listed on the customer notice, helping customers reach you quickly.

For any questions outside the test form submission process, Joe Leavens will remain your contact at the Cranberry Township at: 724-776-4806

Thank you for your assistance in getting this program established and for helping to ensure the safety of Cranberry Township drinking water. Please contact VEPO at (877) 860-VEPO or at info@vepocrossconnex.com with any technical questions on how to use the software.

Sincerely,

Cranberry Township
