**Cranberry Township continues work with Autism Employment Network**

Cranberry Township prides itself on being an inclusive place for residents, visitors, and employees alike.

A successful partnership that began in 2020 is giving opportunities and helping develop skills for members of the community who otherwise may have a hard time finding such a chance.

A partnership with the Autism Employment Network and Progress City LLC includes training and education for Township staff, including autism awareness and techniques for workplace inclusion. Weekly check-ins are maintained to ensure the program is running smoothly, and a continuing discussion of other possible jobs will occur.

The partnership is in effect for the 2021 calendar year.
