Program Will Be “CLICing” on All Cylinders

Cranberry Township’s government never stops working for the residents and businesses in the community.

Through an upcoming pilot program, residents will have a chance to see what goes on behind the scenes to make that work happen.

In collaboration with the Cranberry Township Community Chest, the Community Leadership Institute of Cranberry (CLIC) aims to foster community engagement, growth and understanding by offering an in-depth look at how Cranberry Township functions on a day-to-day basis, and what local government does to improve the quality of life for the community.

Over the course of eight sessions at various Township facilities, participants will learn about the components of Cranberry’s government and how they work together to provide high-quality service and bring value to residents and businesses.

Sessions will be held from 6:30-8 p.m. on consecutive Wednesdays. Participants will be honored for completing the course at a Board of Supervisors meeting.

The first session is expected to begin in Spring 2022.

Space is limited for each CLIC class session. To register for consideration, email CLIC@cranberrytownship.org.
