

## WHAT'S THE FLUSH? WHY HYDRANT PROGRAM IS NEEDED

It's a sign of spring: hydrant flushing in Cranberry Township. But why?

Hydrant flushing is routine maintenance aimed at flushing sediment from the water system. It also checks fire hydrant operation and tests chlorine levels in water lines.

Flushing is conducted from 7 a.m. to 4 p.m. Monday through Friday. Discolored water and fluctuations in water pressure are normal during flushing. Customers should refrain from doing laundry when neighborhood lines are being flushed.

After a reasonable time, if water does not clear, return to normal pressure, or service is interrupted, call Customer Service at 724-776-4806. View the current flushing schedule at [CranberryTownship.org/Flushing](https://CranberryTownship.org/Flushing)

## KEEP 'EM CLEAR: HYDRANT, MANHOLE ACCESS IMPORTANT

Hide and seek? No thanks!

Manholes and fire hydrants aren't the most visually appealing parts of the Township, but they must remain clear to ensure they can be easily accessed.

Township residents are asked to avoid covering manholes and water valve boxes with landscaping, as doing so can make accessing the sewer systems and water valves complicated. It also causes valuable time to be lost during emergencies.

Additionally, residents can also do their part in making hydrants easily found by keeping them clear of shrubs, trees, and landscaping. This includes two feet behind the hydrant and five feet on each side. Nothing should be planted between the hydrant and street.

Help us keep our sewer and water systems running smoothly!

## SAVE THE DATE... SAVE THE PLANET

Cranberry Township's next Household Hazardous Waste Collection is scheduled for Saturday, July 2, 2022 from 9AM – 1PM at the Public Works Maintenance Facility. Noble Environmental manages the Township's waste collections, so visit their website for a detailed list of accepted and non-accepted items. All chemicals must be clearly labeled and securely sealed.

Appointments are required to help reduce traffic flow and wait time, so visit Noble's website to register at: <https://nobleenviro.com/e-waste-and-hhw/>
