**Calling All Angels! Snow Angel Program Needs Helpers**

If blankets of heavy snow are too much to move, Cranberry is ready to send an angel to help.

The Township's Snow Angel program has been activated once again to bring some helping hands to the community.

Cranberry Snow Angels aims to minimize the difficulties of winter weather by matching community volunteers with senior residents or those with mobility needs who need assistance with shoveling. Snow Angels are partnered with residents to remove snow and help keep sidewalks and driveways safer for everyone.

The successful program is initially seeking volunteers as the winter weather turns frightful. Applications for assistance will be accepted in the coming weeks at the same website portal.

Snow Angels will run from December until last snowstorm of winter 2023.

To become a Snow Angel volunteer, visit [CranberryTownship.org/SnowAngels](http://CranberryTownship.org/SnowAngels).
