Get Connected on Cable Line Project

You can't miss it – colorful flags marking ongoing digging across the Township as cable companies work to upgrade their respective services.

A Coffee & Conversation about that work is set for 6:30-8:30 p.m. Wednesday, October 11 in Council Chambers at the Municipal Center, 2525 Rochester Road. Cranberry Township Manager Dan Santoro, along with representatives from Armstrong, Comcast, and Consolidated Communications, will discuss the ongoing cable infrastructure project.

Cranberry Township will serve as the liaison to the cable companies as residents can discuss the work being done on their properties directly with the company representatives.

An RSVP is appreciated by calling 724-776-4806 ext. 1089.

For more information on the cable project, visit cranberrytownship.org/cable.
