

How is the Township communicating work to residents?

These yard signs will be installed in neighborhood entrances where companies are working or will be working to ensure residents are aware. Additional information can be found by scanning the QR code below.

Connecting the Lines On Cable Work

Work to upgrade and expand cable offerings in Cranberry is ongoing, and questions abound.

That's why the Township has invited representatives from Armstrong, Comcast, and Consolidated Communications to meet with residents during a Coffee & Conversation hosted by Township Manager Dan Santoro. Representatives will be on-hand to answer resident's questions about specific work that is being done on homeowner's property.

Coffee & Conversation
6:30-8:30 p.m. Wednesday, October 11
Council Chambers, Municipal Center
RSVP by calling 724-776-4806 ext. 1089

Below are answers to some of the most popular questions.

What is the Township doing to address resident issues?

A full-time staff member has been devoted to focus entirely on these projects. Joseph Leavens, Manager of Sewer and Water Field Operations, is responsible for answering all questions, tracking issues, and coordinating with utility companies if additional response is needed. Leavens can be reached by calling 724-776-4806 ext. 1515.

Why can't companies share lines or use existing lines?

Each company must use their own lines to ensure oversight and accountability in the future. Similarly, any existing lines are already owned by a specific company. Those lines may not be equipped to handle additional usage, requiring new lines to be installed.
