

THE 411 ON

TIPS FOR CARBON MONOXIDE SAFETY

Low winter temperatures make it a challenge to keep homes comfortable.

Some heating sources can pose dangers if used incorrectly. Keep in mind these tips for avoiding potentially deadly situations this winter.

- Avoid using alternative heating sources such as portable generators, kerosene heaters, propane gas stoves, and ovens heated with gasoline indoors as they can lead to carbon monoxide poisoning.
- Don't use a generator, charcoal grill, camp stove, or other gasoline or charcoal-burning device inside your home, basement, garage, or near a window.
- Don't run a car or truck inside an attached garage, even with the door open.
- Don't burn items in a stove or fireplace that aren't properly ventilated.
- Don't heat a house with a gas oven.
- Don't place a portable heater within reach of children or pets and don't use a power strip or extension cord to power it. Follow product instructions before use.
- Install carbon monoxide detectors and replace batteries as required. If the detector sounds, leave the home immediately and dial 911.
- Seek immediate medical attention by calling 911 if experiencing symptoms of carbon monoxide poisoning. Initial symptoms include headache, nausea, vomiting, and fatigue. If recognized early, carbon monoxide poisoning is treatable.

Holiday Trash Pickup Set

Tis the season for holiday celebrations, and with them come heaps of wrapping paper, boxes, and Christmas trees.

With Christmas and New Year's Day occurring on weekdays, collection dates will be held a day later than normal.

Have extra trash? Be sure to purchase pre-paid trash stickers prior to the holiday rush by contacting Customer Service during business hours at 724-776-4806.

Need your Christmas tree hauled away? Simply leave it with your trash during the first two weeks of January.

For more information on pre-paid stickers, holiday schedules, and other information, visit cranberrytownship.org/trash.
