Group to Explore Wealth Inequality During Simulation Event

A striking wealth gap continues to exist for individuals of different races, with a multitude of factors playing a part.

In marking Black History Month, the Cranberry Township Inclusion, Diversity, and Equity Advisory (IDEA) Committee will host a wealth-gap learning simulation and discussion from 6:30-8 p.m. Friday, February 23 in the Senior Center in the Municipal Center, 2525 Rochester Road.

This informative simulation aims to promote understanding of the connection between racial equity, hunger, poverty, and wealth. The simulation showcases why equity is so important to ending hunger and poverty in the United States.
