Cranberry Township Items Up for Auction

Grab retired municipal equipment from Cranberry Township at competitive prices.

The fall auction, administered by Auctions International, will run from Friday, November 22, until Friday, December 6.

Cranberry Township routinely auctions off old and unused equipment via an auction service. Local governments in several states use a similar service to sell surplus items, many of which remain attractive to other municipal governments, contractors, small businesses, and private parties.

At the close of the auction, the successful bidders can arrange to pick up their merchandise from the Township, as is, where is.
