Bicyclist Safety Tips

Wear a Helmet. Everyone 12 and under must wear a helmet according to PA law. However, all riders are strongly encouraged to wear a helmet.

Before Riding, Check Your Bike. Check tire pressure, brakes, and chain before riding.

Be Visible. Wear bright clothing, use lights when riding at night, and never weave in and out of traffic or between parked cars.

Ride with Traffic. Ride on the right side of the road. Make reasonable efforts not to impede the normal movement of traffic.

Be Predictable. Always use caution when turning or merging with traffic, using appropriate hand signals.

Cross Carefully. When approaching an intersection, look left, look right, look left again, and then look over your shoulder before entering the intersection.

Ride Alertly. Always be scanning for hazards. Assume motorists do not see you.

Share the Road. Motorists must give bicyclists a 4 foot buffer when passing.

Sidewalks. Bicyclists are not allowed to ride on sidewalks in business districts or when a bike lane is available. When you must ride on the sidewalk, exercise caution. Pedestrians always have the right of way.

Obey All Traffic Laws. Bicyclists must obey all traffic signs and signals.

Pedestrian Safety Tips

Be Visible. Wear bright or light colored clothing and reflective materials.

Sidewalks and Trails. Always walk on a sidewalk or path. If there are none available, walk facing traffic, on the shoulder, as far away from traffic as possible.

Equipment. Carry a flashlight when walking at night.

Be Predictable. Cross streets at crosswalks or intersections whenever possible.

Cross Carefully. Look left, right, and left again before crossing a street.

Crosswalks. If a crosswalk or intersection is not available, locate a well-lit area, wait for a gap in traffic that allows you enough time to cross safely, and continue to watch for traffic as you cross.

Walk Alertly. Keep alert at all times. Don’t be distracted by electronic devices including radios, smart phones, and other devices that take your eyes and ears off the road.

Obey All Traffic Laws. Stay off of major highways and other pedestrian-prohibited roadways.

Walk with a Friend. Choose walking friends with a similar pace and preferences.

Be Aware. Don’t assume vehicles will stop. Make eye contact with drivers, don’t just look at the vehicle. If a driver is on a cell phone, he or she may not be paying enough attention to drive safely.
