

INFORM, INSPIRE, ENRICH ...

During a year of unprecedented challenges, the Cranberry Library has found new ways to continue to serve our patrons and meet our mission - to strengthen our community by serving as an integral hub for information, inspiration and enrichment. At a time when people found themselves disconnected from all that was familiar, our library promoted ways to stay connected.

We reminded patrons that even when we were not physically open, we are open 24/7 online with e-books, magazines, databases for instruction, enrichment and entertainment. Now, we are beginning to resume in-person services and finding our new 'normal.'

Our library serves as a reliable information resource for patrons of all ages, who seek to:

- Access the internet.
- Seek a new job.
- Build a resume.
- Conduct K-12 and general knowledge research.
- Research 'how to' information from our many databases.
- Develop new skills or hobbies through our Makerspace.
- Freely select reading materials, both fiction and non-fiction.
- Interact with others, through our in-person and virtual events.

Although the pandemic has placed additional stress on our financial resources, we need to maintain level funding so that we can help our community recover!

Cranberry Public Library is ideally positioned as a community center of information technology that, with the right support, can fuel educational and economic opportunity for all citizens.

Your past support is greatly appreciated and your future support is very much needed. Libraries are important cornerstones of a healthy community.

Sincerely,

Leslie Pallotta,
Library Director

Eric Vollmer,
President, Library Board of Trustees
